USE THE POWER OF DATA TO MAKE YOUR JOB EASIER

Toro's intuitive and user-friendly platform, Intelli360, has replaced myTurf.

This digital toolbox makes your job easier by using the power of data to help you manage your fleet, staff and resources more efficiently. Know where your equipment is, what it needs and how it's used – every day – with Toro Intelli360.

Available from anywhere, on any web-enabled device, Intelli360 is designed to help you optimize your work day – all in one convenient place.

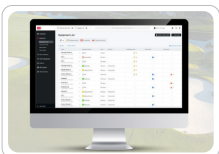

LOCATE & TRACK EQUIPMENT

Monitor the location of all your connected equipment in real time to maximize utilization and productivity.

MANAGE INVENTORY

Find and order parts based on planned or upcoming maintenance. Intelli360 also notifies you when your stock is low.

MINIMIZE DOWNTIME

View a full listing of your equipment, including operating status, hours, maintenance due, and existing work orders.

DIAGNOSE FAULT CODES REMOTELY

If your equipment throws a fault code, an alert in your asset list allows you to address it quickly.

SCHEDULE EFFICIENTLY

Create work orders and set due dates in one central place to ensure each piece of equipment gets the maintenance it needs.

INTEGRATION WITH IntelliDash®

Access your IntelliDash dashboard for everything from weather and radar streams to evapotranspiration forecasts.
